MOHOMMED WASEER WASEEMA NUZHA

PROFILE

I'm proactive undergraduate reading for BICT (Hons) in Information and Communication Technology at the University of Sri Jayewardenepura, willing to expand knowledge in the Software Technology field. I'm seeking an internship in Software Quality Assurance, Expect to add more colors into the organization with my quick learning ability, team play attitude and positive thinking strengths in any kind of situations.

EDUCATION

BICT (Hons)-Bachelor of Information and Communication Technology

Faculty of Technology

University of Sri Jayewardenepura

2021 - Present

PROJECTS

- **Inventory Management System Desktop Application**
  C# | SQL Server | .NET Framework

  This C# desktop app with a SQL Server backend, using .NET Framework, simplifies inventory management. It includes features like inventory tracking, purchase/sales management, and reporting.

- **Online Book Store Web Application - Group Project**
  HTML | CSS | JavaScript | PHP | XAMPP

  Our team developed an online bookstore web app where I optimized frontend design for desktops using HTML, CSS, and JavaScript. Backend functionalities were supported by PHP and XAMPP, aiming for a seamless user experience.

- **Music Player Android App - Java | XML**

  Created a versatile music player app that supports playback of downloaded MP3 audio files, offering users a seamless listening experience with intuitive controls and customizable features

- **Food Website - HTML | CSS | JavaScript - Frontend**

  Developed a user-friendly and responsive food website using HTML, CSS, and JavaScript. Created interactive elements and optimized site performance for a seamless user experience.

- **E-commerce Web Application - React JS - Frontend**

  Designed and implemented the frontend of a web application using React.js, leveraging its component-based architecture to create interactive and dynamic user interfaces.

- **On-time translator Chatting Application - UI - Figma - Group Project**

  Designed a kid-friendly on-time translating chatting app, allowing children to communicate in multiple languages seamlessly with real-time translation.
